11400 South at State Street Intersection Reconstruction Underway Winter - Summer 2006

Project Overview

The 11400 South at State Street Intersection project will be finalizing utility activities this winter and moving forward with roadway reconstruction work in mid-March. The anticipated project completion date is late-August. Improvements include:

- Intersection re-alignment
- Roadway widening
- Drainage improvements
- Surface grinding and resurfacing
- Traffic signal installation
- Landscaping

As it becomes available, more detailed construction activity / schedule information will be sent via email updates (see "Stay Informed" below).

11400 S. at State Street Intersection

Stay Informed

To stay up-to-date on the latest 11400 South at State Street Intersection construction activities, simply send your email address to 11400-state@hwlochner.com. Email construction updates will be sent to you on a weekly basis or as construction activities change.

Is This Project Related to the 11400 South Interchange Project?

The 11400 South at State Street project is a partnership between UDOT and Sandy City and is independent of the future 11400 South Interchange project, currently under design. Coordination between this project and the future interchange project will take place as necessary to ensure the most efficient result. For information regarding the interchange project, please visit www.udot.utah.gov/11400south or contact Joe Kammerer at (801) 887-3435.

Project Improvements

Project Extents

State Street = 1400 ft. (~700 ft. north / 700 ft. south of intersection)

11400 South = 1760 ft. (~660 ft. west / 1100 ft. east of the intersection)

11400 South Improvements

- West of State Street, 11400 South will be widened near the intersection to accommodate dedicated right- and left-turn lanes and two through-lanes in the eastbound direction. Westbound 11400 South, west of State St., will remain at one lane.
- East of State Street, eastbound and westbound 11400 South will be widened to two lanes in each direction with median turn lanes and sidewalks.
- Westbound 11400 South, at the State Street intersection, will contain two dedicated left-turn lanes, one through-lane, and one dedicated right-turn lane.

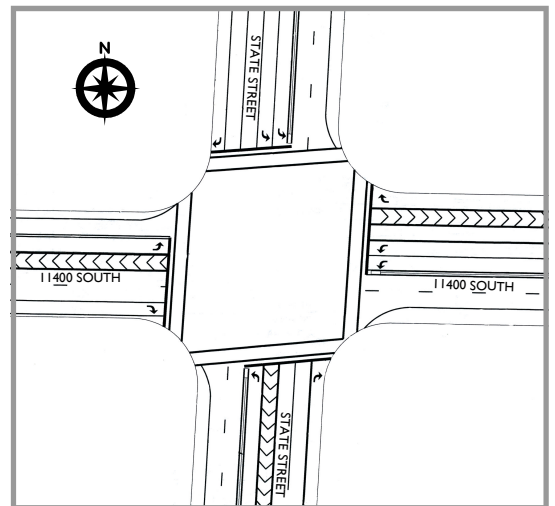

State Street Improvements

State Street will have two through-lanes in each direction, median turn lanes, and sidewalks. Intersection improvements include dedicated right- and left-turn lanes, with two dedicated left-turn lanes from southbound State Street to eastbound 11400 South.

Maintenance-of-Traffic During Construction

- State Street: Two lanes in each direction will be maintained
- 11400 South: One lane in each direction will be maintained
- Lane restrictions will be announced on roadside signs and through construction email updates

New 11400 S. at State St. Intersection
